

Barbara was in the Class of 1967 but due to health issues she graduated with the class of 1968. According to her mother in San Marcos, Barbara passed away at home in Burbank. She suffered with muscular dystrophy most of her life, and three years before her death, she had a debilitating stroke. She moved back home with her parents in Burbank, and from then on until her death, they lovingly cared for Barbara themselves in her home. Her death was due to complications of the muscular dystrophy, the stroke, and finally pneumonia. During the years that Barbara was on her own, she worked for "Joni and Friends," the Christian ministry of Joni Eareckson Tada.
